3. Rules for Conducive Learning

- Join the class early so that you can work through any technical difficulties if they arise.
 - For first time users of Zoom, please test the technology and audio quality in advance and get help if you need.
- Since this is a video call, choose a suitable venue that is quiet and a background that you are comfortable for others to view. This will really prevent distractions during the entire lesson!
-  **Mute** your microphone when you join. Wait for instructions from the tutor who will walk you through how the lesson will be conducted. Speak only when you are called to or granted permission.
- You must keep your **Video On**  for the full lesson duration. Students who wish to go to the restroom, please seek permission from the tutor.
